

CARBON FARMING MED

Accelerating carbon market development for climate change mitigation and adaptation in Mediterranean agriculture.

**CARBON
FARMING MED**

**Interreg
Euro-MED**

Co-funded by
the European Union

The Carbon Farming MED project aims to help Mediterranean countries meet the EU's 2035 climate goals in agriculture. This initiative will establish the first cross-border platform in the region for trading carbon credits, promoting sustainable farming practices and economic opportunities. By enhancing carbon sequestration and supporting eco-friendly agriculture, the project advances climate neutrality and fosters regional cooperation in combating climate change.

Total budget: €2,789,472.36

Interreg funds: €2,231,577.88

Project duration: January 2024–September 2026
